

TruCLEAN™ Mop Covers

Ultra-low particle generation

Description

TruCLEAN Mop Covers provide an unprecedented level of quality assurance and cleaning performance. Knitted from 100% continuous filament polyester. The double-knit, no-run interlock design guarantees maximum abrasion resistance and surface coherence. TruCLEAN Mop Cover (22-35) is designed for use with our TruCLEAN Sponge Mops and Microfiber Mops, providing a quick-changing and efficient instrument for applying cleaning solutions without compromising particulate control and wiping protocols.

TruCLEAN Perforated Mop Cover (22-36) has a unique design which allows for extra liquid to pass through the cover and quickly absorb into sponge mop. Specifically for use with our TruCLEAN Hydrosorb Sponge Mop.

TruCLEAN Microfiber Mop Cover (22-37) provides superior lifting of dirt and dust particles while extracting living surface bacteria.

TruCLEAN Mop Covers are compatible with Gamma, ETO and autoclave sterilization.

Features & Benefits

- Easy changing cover, fits securely over flat mop head
- Cleanroom laundered and packaged for use in sterile environments
- Prevents cleanroom contamination with low levels of particles and extractables
- Consistent contact across whole mop surface
- Lot-to-lot traceability

Applications

- For use with TruCLEAN Yarn Mop, Sponge Mop and Microfiber Mops
- Designed for isolator cleaning and general purpose cleaning in cleanroom environments
