Product Specifications S1051 Series Dual Grounding Block for Workbenches

Description

The S1051 is a space-saving grounding block designed to provide direct path to ground in ESD Benches & Workstations for up to 2 operators/users. Meets MIL-PRF-8789B.

Features

- *Can easily be installed/mounted at the desired location, ideally beneath, work benches, through two mounting holes.*
- * A 6' long Coiled Cord with a # 10 Ring Terminal provides an easy connecting point to the ground.*
- * With its no built-in resistor construction, this product provides a direct path to the ground.*
