

StatPro low profile ground cords are highly durable and reliable. They are made from rugged vinyl, and come with standard 15' (3 meter) cords. They meet or exceed the requirements of ANSI ESD S20.20 and ANSI/ESD S-6.1.

Low Profile Floor Mat Ground Cord

StatPro low profile ground cords feature a molded mushroom cap which is easy-to-attach, and ensures a secure connection to floor mats while reducing tripping, and allowing chairs to easily roll over the mat without getting snagged.

Low Profile Common Point Ground Cord

Equipped with two standard banana jacks, this cord grounds up to two operators at the same time. It features a low profile, molded head with a built-in male snap.

Specifications

- 10mm (3/8") Male Snap
- #10 Ring Type Ground Terminal
