

WARRANTY

Lindstrom brand tools carry a full guarantee covering defects in material and workmanship. Tools subjected to abnormal use, abuse, alteration, or use after the tool is significantly worn are not covered by this warranty. The Lindstrom factory conducts all tool evaluations.

Returns for warranty evaluation from North American customers should be sent to:

Lindstrom Precision Tools reconditioning facility address:

Snap-on Industrial Distribution Center
Attn: Lindstrom Reconditioning Department
6969 Jamesson Road
Midland, GA 31820
Email: industrialbrands@snapon.com

SERVICES

Only factory-authorized service can offer resharpener and reconditioning that keeps the Lindstrom lifetime warranty intact. Our service center in City of Industry offers a full range of reconditioning, calibration and tool sharpening for all Lindstrom brand products and most other brands. Services offered include:

- Full reconditioning (cutting edges sharpened, new grips & springs, joint adjusted)
- Resharpener of cutters, scissors, cutting tweezers
- Pliers modification, serrations, and handle upgrades to HS style
- Recalibration & repair of torque screwdrivers, testing & certificates of calibration of torque products, and special services (scale change to cNm, reverse action, etc.)
- Reconditioning or modification of tweezers

Call 800.446.7404 or email us at industrialbrands@snapon.com for price and lead-time.

Tools for servicing should be sent to:
